

FAROOQ ABDULLAH

MERN-STACK DEVELOPER

React.js | Node.js | Express.js | MongoDB | REST APIs

PROFESSIONAL SUMMARY

A BS Software Engineering student at Iqra University with professional training in web and app development from SMIT. Hands-on experience building full-stack MERN applications, including a Resume Analyzer and other modern web projects. Passionate about creating real-world software solutions, continuously learning new technologies, and seeking an internship or junior developer role to contribute to a professional development team.

PERSONAL / UNIVERSITY PROJECTS

RideGo - DSA-Based Ride Booking System

Built a Java ride booking system applying Graphs and Dijkstra's Algorithm for route optimization, Priority Queues for driver assignment, Queues and Stacks for ride request and history management, with SQLite storage, Map API integration, and a Java Swing GUI.

Helplytic AI (MERN Stack)

Built a developer help platform where users can post technical queries and receive AI-generated solutions, with secure JWT authentication and RESTful APIs powering the backend. Designed a clean, fully responsive UI using React.js for a smooth user experience across devices.

E-Commerce Web App (MERN)

Developed a full-stack e-commerce application featuring an admin dashboard for managing products, users, and orders through complete CRUD operations. Implemented JWT-based authentication and built a responsive, user-friendly frontend for browsing and checkout.

AI Resume Builder (SaaS Product)

Created an AI-powered resume builder that generates content, evaluates resumes with real-time ATS score analysis, and provides a live preview as users edit. Integrated MongoDB to store and manage user resume data.

Blog Application

Built a responsive blog platform supporting full CRUD functionality for creating, editing, and deleting posts, backed by MongoDB for data storage. Designed the interface with JavaScript for smooth, dynamic content updates.

CRUD Dashboard

Developed a data management dashboard with complete CRUD operations, connected to backend APIs for real-time data handling. Focused on a clean, intuitive layout for efficient data entry and monitoring.

Foodie Web App (Client Project)

Designed a responsive food ordering interface with interactive UI components for browsing menus and placing orders. Built with a focus on smooth navigation and an engaging user experience.

TECHNICAL SKILLS

Programming Languages:

Java, JavaScript (ES6)

Core Concepts:

Data Structures & Algorithms (DSA), Object-Oriented Programming (OOP), C

Frontend:

HTML5, CSS3, Bootstrap, JavaScript (ES6), React.js

Backend:

Node.js, Express.js

Databases:

MongoDB, Firebase (Firestore)

Authentication & APIs:

JWT Authentication, Firebase Authentication, RESTful APIs

Tools & Concepts:

Git, GitHub, Vercel, API Integration, Responsive Design

EDUCATION

Bachelor of Science in Software Engineering (In Progress)

Iqra University, Karachi
2024 - Present

Intermediate (Pre-Engineering)

PECHS College, Karachi
2022 - 2024

Matriculation (Science)

Karachi Board
2022

CERTIFICATIONS

Modern Web Application Development (Batch-16)

Saylani Mass Training Programme
Duration: Apr-2025 to Apr-2026 (13 Months)

Dev 2: Buildathon - Certificate of Participation

SkillVerse 2026, IU Fest
IQRA University Main Campus
15th-17th June 2026

SOFT SKILLS

Team Collaboration, Communication, Time Management, Problem Solving

LANGUAGE

- Urdu (Native)
- English (Professional Working Proficiency)
